

What is claimed is:

1. A topical composition for treatment of skin conditions comprising sulfur, selenium sulfide, and a carrier vehicle wherein a weight percent of the sulfur in the topical composition is at least equal to or greater than a weight percent of the carrier vehicle.
2. The topical composition of Claim 1 further comprising ketoconazole.
3. The topical composition of Claim 2 further comprising pyrithione zinc.
4. A topical composition for treatment of skin conditions comprising, sulfur, ketoconazole, and a carrier vehicle, wherein a weight percent of the sulfur in the topical composition is at least equal to or greater than a weight percent of the carrier vehicle.
5. The topical composition of Claim 4 further comprising pyrithione zinc.
6. A topical composition for treatment of skin conditions comprising, sulfur, pyrithione zinc, and a carrier vehicle, wherein a weight percent of the sulfur in the topical composition is at least equal to or greater than a weight percent of the carrier vehicle.
7. The topical composition of Claim 6 further comprising selenium sulfide.
8. The topical composition of Claim 3 wherein the composition comprises between substantially 1% and substantially 2.5% by weight of selenium sulfide, between substantially 1% and substantially 2.5% by weight of ketoconazole, and between substantially 1% and substantially 2.5% by weight of pyrithione zinc.
9. The topical composition of Claim 1, wherein the sulfur is sublimed sulfur.
10. The topical composition of Claim 1, wherein the carrier vehicle is VASELINE®.
11. The topical composition of Claim 1, wherein the carrier vehicle is petroleum jelly.

12. The topical composition of Claim 1, wherein the carrier vehicle is lard.
13. The topical composition of Claim 1, wherein the carrier vehicle is a lotion.
14. The topical composition of Claim 1, wherein the composition is a cream.
15. The topical composition of Claim 1, wherein the composition is an ointment.
16. The topical composition of Claim 1, wherein the composition is a powder.
17. The topical composition of Claim 1, wherein the composition is a gel.
18. The topical composition of Claim 1, wherein the composition is a paste.
19. The topical composition of Claim 1, wherein the composition comprises at least about fifty percent by weight sulfur.
20. The topical composition of Claim 1, wherein the composition comprises at least about sixty percent by weight sulfur.
21. The topical composition of Claim 1, wherein the composition comprises at least about seventy percent by weight sulfur.
22. The topical composition of Claim 1, wherein the composition comprises at least about eighty percent by weight sulfur.
23. The topical composition of Claim 1, wherein the composition comprises at least ninety percent by weight sulfur.

24. The topical composition of Claim 1, wherein the composition comprises about 50-100 percent by weight sulfur.

25. The topical composition of Claim 1, wherein the composition is non-aqueous.

26. A method of treating skin conditions, the method comprising preparing a non-aqueous composition by mixing sulfur, selenium sulfide and a carrier vehicle together, and applying the topical composition to the skin.

27. The method of Claim 26 wherein preparing the non-aqueous composition further comprises mixing ketoconazole with the sulfur, the selenium sulfide and the carrier vehicle.

28. The method of Claim 27 wherein preparing the non-aqueous composition further comprises mixing pyrithione zinc with the sulfur, the selenium sulfide, the ketoconazole and the carrier vehicle.

29. The method of Claim 26, wherein the mixing further comprises mixing equal percents, by weight, of the sulfur and the carrier vehicle.

30. The method of Claim 26, wherein the mixing further comprises mixing a percent, by weight, of sulfur greater than a percent by weight of the carrier vehicle.

31. The method of Claim 26, wherein the treating comprises treating dermatitis.

32. The method of Claim 26, further comprising treating skin conditions selected from a group consisting of tinea versicolor or sunspots, seborrheic keratoses, foot fungus and tinea cruris.

33. The method of Claim 26, wherein the mixing further comprises mixing sublimed sulfur with the carrier vehicle.

34. The method of Claim 26, wherein the mixing further comprises selecting the carrier vehicle from a group consisting of VASELINE<sup>®</sup>, lard, petroleum jelly, and combinations thereof.
